Joker's Wild

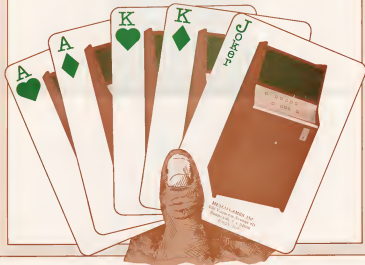

poker
for amusement

We rustled up the sharpest poker game in the whole territory. Meyco Games introduces Joker's Wild, a game of fun, skill and the stakes are high profits.

The computer's the dealer. It produces stimulating, realistic sounds that are surely a crowd pleaser and its programmed for multi coin play. There's a 19 inch screen with color options and it's enclosed in an attractive wood grained cabinet.

The game shows complete instructions on the monitor and a complete readout of the activity meter. Joker's Wild is equipped with a built in debug system and other features which include micro-processor circuitry, modular construction and a battery back up.

For a full house and high profits, try your hand at Joker's Wild.
